

Thank You

for recycling with us!

Thank you for all your hard work collecting cards for us to recycle here at TLM Environmental. Between all of the schools that partnered with us, we recycled a fantastic 1.740 tonnes of cards!

To put that into context, one single tree produces around 3000 cards, which means we have saved around 26 trees between us all!

We also would like to extend our thanks to the wonderful people at Alton Garden Centre, who kindly donated towards our prize packs for the three schools who recycled the most cards.

We have enjoyed working with you all so much we are now created a special recycling package for schools, offering all of our services at a reduced cost including confidential waste destruction, sanitary and nappy bins, general waste, food and recycling bins. We also aim to offer more recycling incentives and competitions over the course of time. Please speak to us for more information.

Once again, we thank you for your enthusiasm, support and participation in our Christmas Card Recycling competition.

Best wishes,

The Team at TLM Environmental Ltd.
